This first year at Sonora has been one of growth, development, and anticipation. Students have seen the growth of many buildings and classrooms up to their completion, however the growth within them, as forever told, will continue.

Students have learned to develop their many skills and interests through the increasing opportunities offered by a new school. Organizations and clubs within the student body are developing higher standards which we are sure future Raiders will respect and want to follow.

Sonora's students are now eagerly anticipating the growth and development of its second year. With few limitations, Sonora has many ways of expanding in all directions. The possibilities are great, and we feel success is inevitable. With these ideas in mind, we have chosen the theme 'Room To Grow' for the 1967 El Vencedor.

Elsie,
I never got
to know you too
well this year.
Maybe next year
we'll have some
classes together
stay as sweet
as you are
Good luck

Elsie,

No encore! Tis me. I forgot to tell you in me other notes that you are a rat for being so cute & darling & everything, and why can't you be charitable and hand out the "leftovers" to poor people(et?) like me? Also, cheer up! Sunshine and happiness rules, & always comes to people who deserve it. For instance, you. Once again I must say so sorry----

Sophomore Class

SOPHOMORE CLASS

This year the class of 1969 has shown their superior abilities in leadership, scholastics, and sports throughout the school year. The atheletic teams have shown a fighting spirit that is uncommon even in older schools and the sophomore student body has assumed the responsibilities that are essential for a successful graduating class. They have proven themselves to be a future junior class that Sonora can be proud of.

It is to bad that we broke up ~~just~~ sorry but I think we both learned a lot, at least I did. As far as I am concerned your Dad helped this break up alone by not letting you go out and I want to wish you luck in hurture years.

Freshman Class 66-67

A year of work, surprises and fun would describe the past year for the Freshman Class. Much cooperation from the class has helped to support such a fine year. The candy sale and the bake sale were examples of a united class working together on fund raising events. All and all the 66-67 year has been a great year to begin high school for the Freshman class at Sonora.

To Allen
I was really surprised to find out that my parents know yalls. It's been really fun growing up with you. You are so sweet and nice. I'm so glad I met you, but I wish it had been sooner. We had fun together in Drill Team, and I'm sure that we will next year. I had luck forever in our Annie Laurence

Let me count the ways,
How deep is the ocean,
How high is the sky
How many times do
I think of you, how many
roses are covered with dew
How far would I travel to
be where you are?
How far is the ground from

Dear Elsie, It was nice to know you this last year. We had a lot of fun this past year for one day just sitting and talking. Next year I hope we can be good friends again. Good luck in future years, and all the you one thing I'm sure of is that you could help your sex appeal this year. I hope that you will try and

Elsie—
You're too smart for me in español! But that doesn't make any less of a great girl. I hope to see you next year and have a really great vacation. It's been a really great year.
Nina Hoecker

P.S. Every time I'm in Dallas I'll be thinking of you.
P.S.S. How is a poem I would like to write you on "Can't think of a thing to write"? Maybe some inspiration will come on ink, bum pen, but Write, Annie

P.S.S.S. My P.S.S.S.S. is on the opposite page.

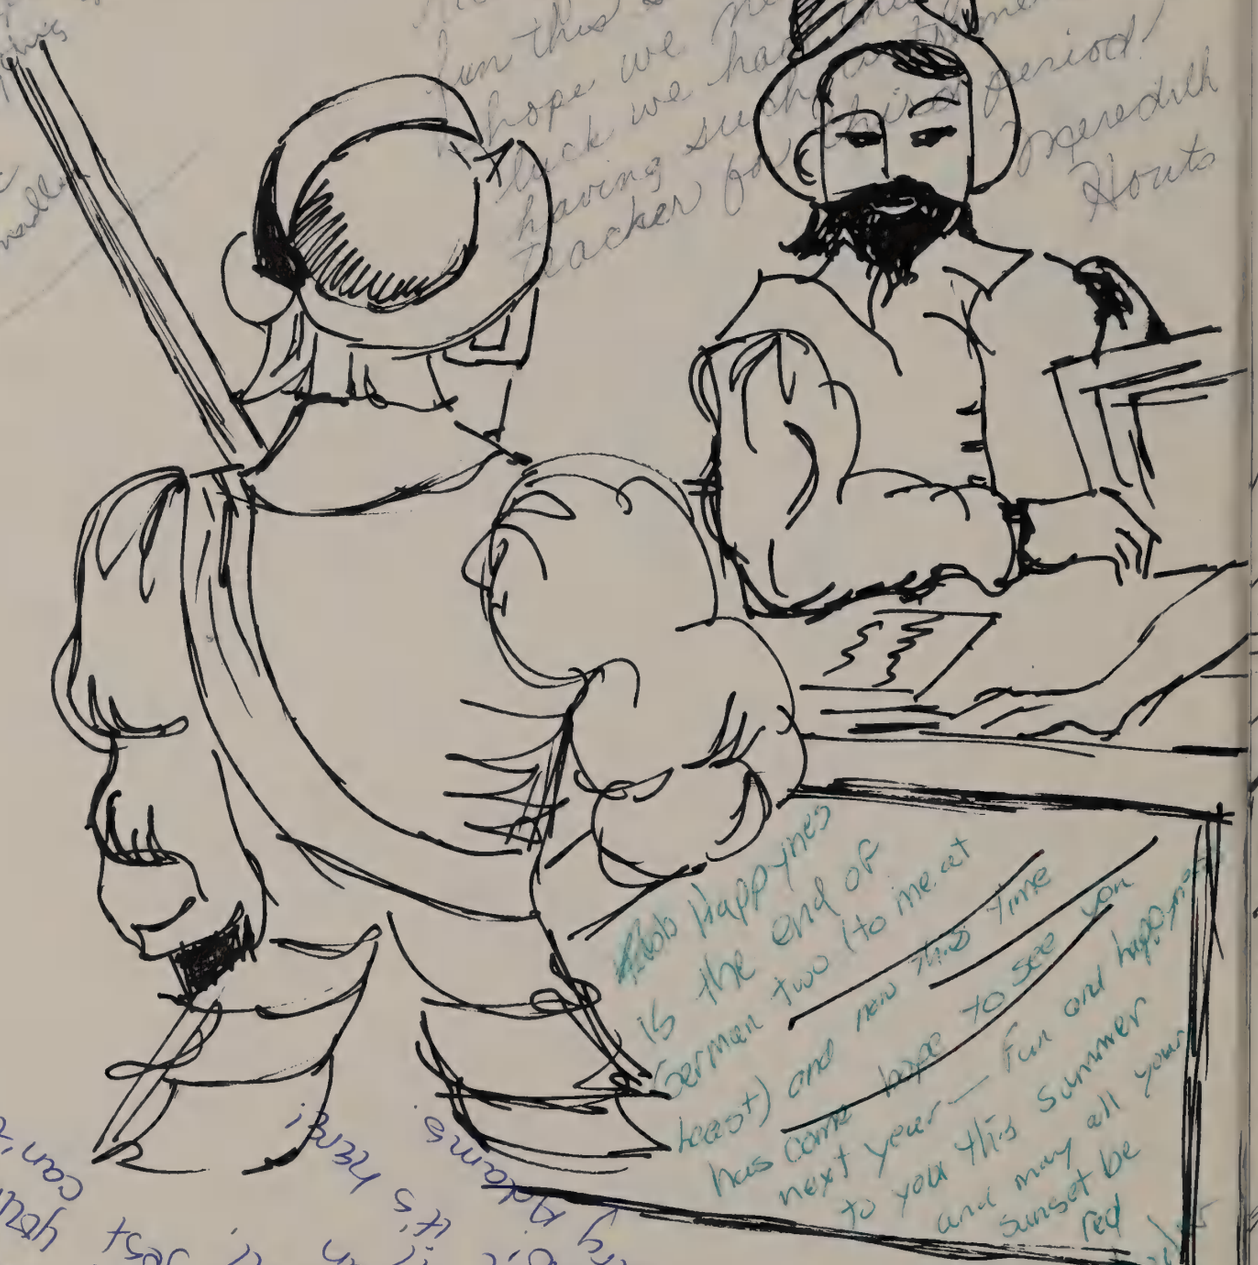

To one of the nicest and the smartest and don't blush cuz you know you are—have the best summer ever and stay a sweet as you are

And if I should kiss you how much would you cry?
How deep is the ocean,
How high is the sky?

Elsie,
Aren't you glad to be rid of Mr. Lytton? Fare thee well this summer and let's hope we never have the bad luck we had this year in having such a tremendous teacher for this period!
Yours Sincerely

Elsie-
It's been great seeing you again this year. We've been going to school together for four years now and I finally got to know you real well & hope to see you this summer and next year- and get to know you better. Good luck in everything you do in future years.

Not really, don't you think we're lucky to be the first graduating class! ☺ Don't ya just luv SONORA? I do. ☺ I luv the carpets (cuz I'm not the one who has to vacuum it!) I luv being warm when it's cold outside and cool when it's warm outside. I luv being on the Drill Team - I think it's fun to march. I wish you were going to be a Rabblerette next year but I'll settle for you just not moving (does that sound correct? You know what I mean anyway) It has really truly been fun having you as a friend - getting through all those love affairs! Not just for you but for everybody it seems that you like a real lot & he likes someone else. I'm going to miss you if you're going to move. I'd say I'm glad you agree. I hope we have a lot of laughs at those "parties" as we did this past year. I love ya lots and lots, & this & that, I love you, I do, I hope you love me too. ☺ I don't know what you're going to say about this but I think you're cute, sweet & very NEAT

Let Girls Be Girls. . .

On February 23, 1967, the Girls' League sponsored their first activity for the year, a fashion show. The theme was "Let Girls Be Girls" along with fashion Do's and Don'ts.

Miss Wendy Ward was the commentator from Montgomery Wards. She gave the girls tips on the new spring fashions for school and party wear. Miss Lunetta, Miss Weekes, and Mrs. Van Oppen gave the girls pointers on how to be well poised and graceful.

Adding to the fashion show, Girls' League awarded a red rose to the first girl of the month, Sue Emery.

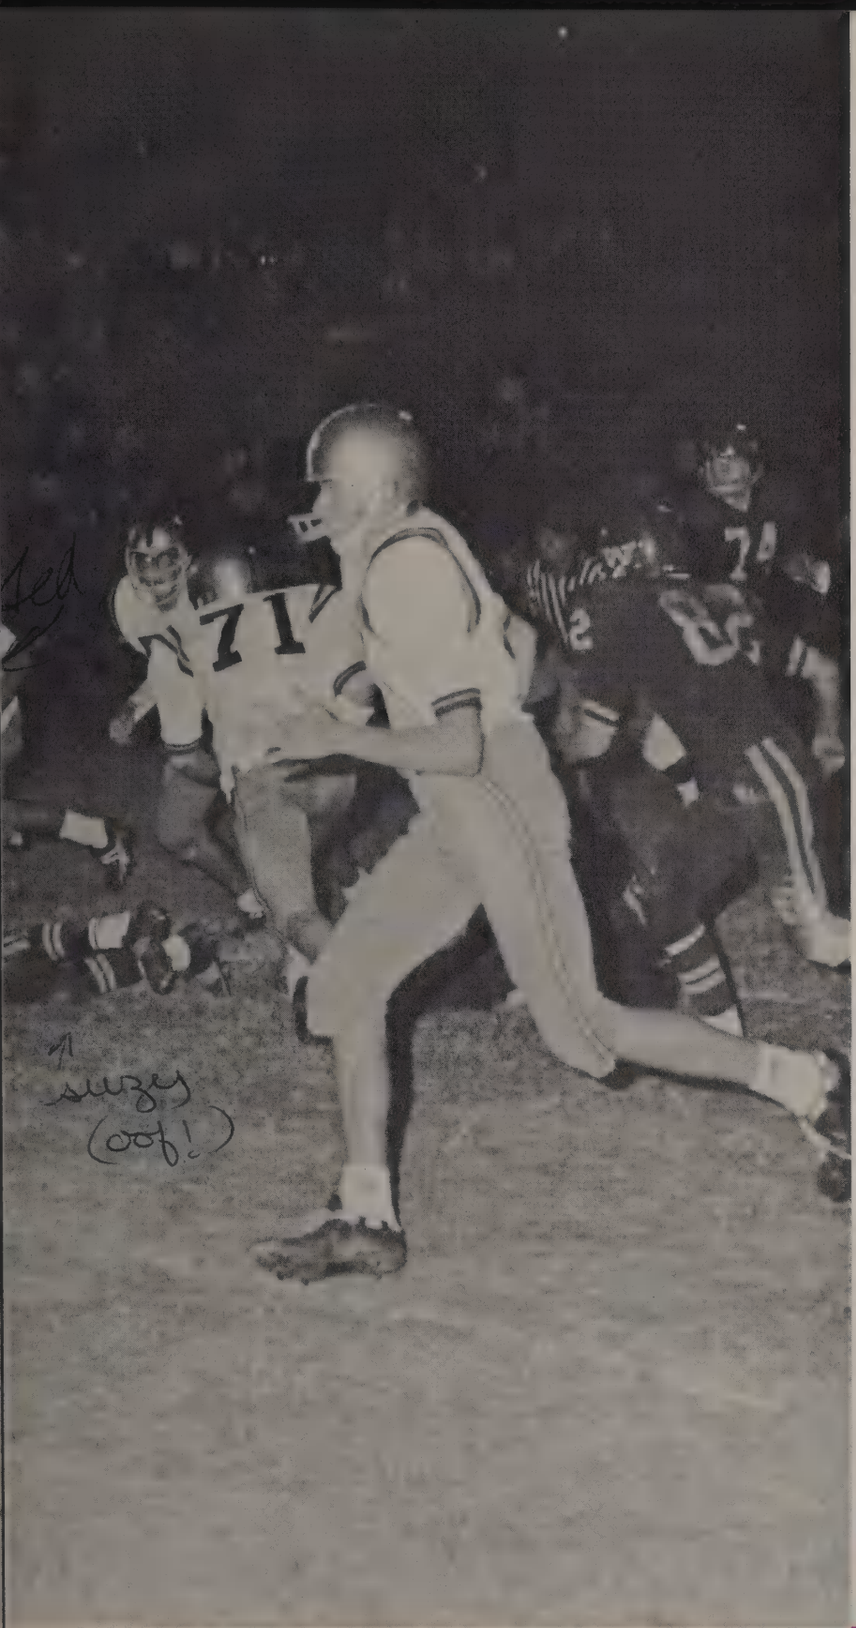

Great wishes from a 1st string defensive player. Love, (see pictures) Suzy

Sports

This year, our first year of sports at Sonora, has been one of building. We have been building and training for our next two years. Since our school only has two classes we were up against tough competition facing schools with three and four classes. We held our own this year and look forward to a better season next year.

Elsie,
I've known you for so long and yet I can't even think of anything to write about a most wonderful person. Thanks for your friendship.
Love you,
Ted Hamaguchi

Sonora's first Varsity football team did a fine job this year considering the inexperience of most players. Now that our team has the experience it needs we can look forward to a winning season next year.

Else,
There's been times when I've wanted to get to know you better, but I didn't. Maybe you'll look through your yearbook & remember who I was. I'll remember you. Have a great summer, & remember, it's not over 'til the fat lady sings. Keep your head up & your chin down. Don't let anyone get you down. Be yourself & you can't go wrong. Take care of yourself & have fun. I hope you do too!

Love ya,

Dear Elsie,

Well, kid, it's been a long, hot(?), stiffy school year, but it's finally over! We've been through a lot together the past few months since February. Imagine, since February. I've been having uncle Pech! I don't know why I used Germ since I have it, but you know me! TP By the way, I appreciate you saving this page for me for a week. TP I hated to use those things, cause I gotta write a lot. TP Remember always our Germ class and all the fun(?) we had in it. I hope next Germ year will be better. TP And always remember all the times we, (cause I had to listen) had worrying about Boy! I hope this summer you'll straighten out your problems and get already for next year. (I hate pens that smear)

TP Your little eye socket have probably noticed 'Melvin' and 'Theodore', these little guys are for you, so you can always remember me. (Now ya hate 'em, huh?) And that flower up in the right hand corner is to show ya that I can draw them too! TP Special bulletin .... wouldn't know it, pish, I'm writing on Margi's reserved page... oh well, now ya can remember me by something else... stupidity! ... end of special bulletin. TP Oh yes, and you can remember me by coming over to my house and living like and occasionally visiting your house! But seriously, I enjoyed (big word) you coming over. And during the summer I want ya to come over a lot, go swimming, sleeping in tents (I have indian in me) and barbequing (+ I get that spelling from you, honestly, do you think I would spell a word like THAT?) O.K.? Fine, then it is settled. Now, onward to some more little sentences.

I just had to do that, you know, impulses + such! TP Well, I can't think of anything at the moment + since I keep hearing faint little whispers of "You can finish it later" etc., I shall stop at this time + continue later. I thank you!

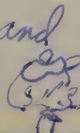

TP Well, I am back! I still can't think of anything but I shall try. I just drew him to take up space. Oh, here's something: remember that we have to go on our trip through Cali/or (Mexico, if you must,) after high school. I'll supply the car, you supply the gas and either state or country (whatever) shall be blessed with our presence! TP At last I'm getting to the end of the page. (You'd think with all my complaining I didn't want to write on it!) But I do ... really. Well, now I'll say something serious + for you to cherish all your little life.... Good luck always, have all your dreams come true and enjoy life.

Love Ya,

Debbie (Christensen, in case ya forget)

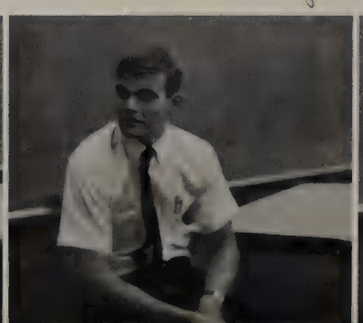

P.S. I hope those dreams are good + not, well... you know!!?!!

Dear Elsie,

Hi! (Wait, I forgot.) 'Lo. There, that's better, huh. Tradition, (sniff) as all good ccnrsqnrl30 know, (sob) rules. Therefore, how are you? This was really a year to remember. (In more ways than one for you, I know; I wouldn't have put that there but you told me to remind you that life can be cruel at times, so, since I am your humble and obedient buddy...) It was soooooooo fun smuggling letters to each other in Mrs. Sorrell's class, wasn't it! And walking Marshad Sharon (?) to their English class and hurrying back to our class before the bell... and when we were in Van Oppen's class—yelling all across the room to each other... I don't know how many pencils I sharpened away to get your notes (would you believe 1... ½... ⅓...?) Well, I can't help it that I'm such a chicken... 'member, ya hafta snap me out of it, ok? I know you could do it, Els, any knowin what a groovy good faithful true kind sweet understanding friend ya are, I know for sure you wouldn't let down helpless a blue & green rose upholstered M.G., right? Ah, parting is such sweet sorrow. (Sob)

"Will I see you again?" I'd better! All during the summer, I hope. Oh dear, I've come to the end of the page already (imagine, pokey ole me!) so turn to page... uh... page 11½? (sniff) Merci beaucoups! ← ok?

Elsie - You're really a cute kid. Stay that way. You are the fastest typist I know!! Good luck & best wishes always!
